REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a digital recording apparatus that obtains a digital stream including a plurality of frames, while recording the digital stream on a digital recording medium. Independent claim 1 identifies the uniquely distinct features "obtaining means for obtaining, during recording, an instruction to perform a predetermined procedure in which a recording area for the recording has to be changed from a first recording area to a second recording area which is not necessarily continuous to the first recording area". The closest prior art, Baryla (US Pat. No. 5,717,468) and Gotoh et al (US Pat. No. 6,314,235) discloses a recording method, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
